# Introducing the PSW Student Pharmacist Advisory Committee

Mandy Walter, 2021 PharmD Candidate

As part of PSW's motto of "One Voice. One Vision." for Wisconsin's pharmacists, the Student Pharmacist Advisory Committee was formed in 2019 to unify the voices and ideas of student pharmacists in Wisconsin. Each school of pharmacy in Wisconsin delegates 1-2 student representatives and 1-2 faculty liaisons to form the Student Pharmacist Advisory Committee. There are three schools of pharmacy located in the state of Wisconsin. They are Concordia University Wisconsin School of Pharmacy located in Mequon, WI, Medical College of Wisconsin School of Pharmacy located in Wauwatosa, WI, and University of Wisconsin-Madison School of Pharmacy located in Madison, WI. Student representatives may serve up to 2-year terms on the committee and are appointed by voting processes conducted by their respective schools. Faculty liaisons may serve indefinite terms. The student representatives and faculty liaisons are joined by two PSW Advisory Leads. On this Committee, the PSW President-Elect and Interim Executive Vice President and CEO serve as PSW Advisory Leads and are the acting liaisons between the Committee and PSW Board of Directors. This relationship allows student pharmacists in Wisconsin to have a voice in PSW Board of Director meetings. The Student Pharmacist Advisory Committee utilizes

this relationship to advise and inform the PSW Board of Directors on issues, activities, and ideas related to student pharmacist education and practice in Wisconsin. Further, legislative advocacy, PSW involvement and chapter activities are discussed and shared amongst the committee. Committee meetings are held quarterly. Through this relationship, ideas have been shared on increasing student participation in legislative advocacy and increasing student attendance at PSW meetings. The Student Pharmacist Advisory Committee looks forward to a continued relationship with the PSW Board of Directors to further the education and practice of Wisconsin student pharmacists.
